

# Vigter Medical Group Company Information Brief

**MISSION STATEMENT:**  
*Vigter Medical Group (VMG) provides cost effective medical direction support services to the federal government and its contractors.*

*VMG is HUBZone certified by the Small Business Administration and a Service Disabled, Veteran Owned Small Business (SDVOSB) verified by the Center for Veterans Enterprise.*

**Vigter Medical Group (VMG)** is the premier provider of customized, comprehensive medical direction and oversight to government and commercial organizations. Our medical expertise and knowledge enables us to provide creative and cost effective solutions to clients around the globe. We specialize in providing medical direction and oversight to various EMS organizations as well as to Emergency Medical Technicians (EMTs) and tactical medics .

### JEFFREY A. LEE, MD, MPH, CEO

Jeffrey A. Lee, MD, MPH, the CEO of Vigter Medical Group LLC, is a retired military medical officer and has over 30 years experience in military medicine. Dr. Lee is a former EMT-P and former 18D. He served in both Special Forces and the medical corps during his twenty-four year tenure in the US Army and specializes in the areas of medical oversight and medical direction for medical Para-professionals working in high threat environments.

### CORE CAPABILITIES

With a focus on providing the highest quality customer care and service, our experts and business professionals analyze, research, design, and

implement solutions utilizing the latest green technologies in the areas of:

- 24/7/365 physician support
- Integrated state of the art call center
- Protocol development and implementation
- Formulary based on working protocols
- Pharmacy logistic services based on formulary development
- Scope of practice derived from latest evidence based medicine focusing on TCCC
- Medical intelligence services
- Medical risk management services
- Medical direction services
- Scenario based training in TCCC
- Medical Staffing

### VMG DISCRIMINATORS

**VigterWatch:** VigterWatch is our proprietary, bundled physician support services for remote medical providers. It combines evidence based control documents of protocols, standing orders, and scope of practice. A formulary is derived based on working control documents.

**VigterMI (Medical Intelligence):** Vigter MI should be an essential part of any organization's

planning when expanding outside the United States. VMG can provide pre-deployment medical area studies, site survey teams, and transition teams, all provided to reduce risk to your new facility and employees. This coupled with detailed risk/threat/vulnerability assessments ensure that your organization will operate at maximum efficiency.

**VigterGT (Vigter Go-Teams):** Disasters and rapid deployments can happen at any time exposing you and your personnel to risk. VigterGT are 4 person teams consisting of a physician, physician assistant, and 2 highly trained former Special Forces Medics who can rapidly deploy, providing stable medical assets on the ground when needed most. VigterGT can be deployed to set up medical operations, to provide medical support/logistics, or to provide training both in the US and outside the US.

**VigterMMD (My Medical Director):** Many corporations employ a Corporate Medical Officer in-house at a high cost to the company. VMG is experienced in providing Medical Direction services to both government and commercial clients and has designed effective models for providing this service remotely. This translates into reduced cost to your organization with no reduction in Medical Direction services while providing liability coverage.

### Vigter Medical Advisory Group (V-MAG):

VigterWatch is backed up by an around the clock call center that puts remote medical providers directly in contact with a physician. These physicians come from our multi-specialty, multi-disciplinary group called the Vigter Medical Advisory Group (V-MAG).

### PAST PERFORMANCE

- Department of Defense
- Department of State
- Other commercial entities
- Past performance POCs supplied upon request
